

Don't let a UTI slow you down.

Treatment for urinary tract infections (UTI) is now easy peesy. If you are a woman aged 18-65 and are experiencing UTI symptoms, you can have a private consultation with a trained pharmacist and if appropriate, get treatment there and then. Don't let a UTI slow you down, find a participating pharmacy at health.tas.gov.au/UTI

Authorised by the Tasmanian Government, Hobart.
