

Don't let a UTI slow you down.

Common symptoms of a UTI

Frequently needing to go

Pain in the lower tummy

Burning when you wee

Treatment for urinary tract infections (UTI) is now easy peesy.

If you are a woman aged 18-65 and are experiencing UTI symptoms, you can have a private consultation with a trained pharmacist and if appropriate, get treatment there and then.

Find a participating pharmacy at health.tas.gov.au/UTI

Authorised by the Tasmanian Government, Hobart.
